## Professional Summary

---

Frontend Developer with hands-on experience in building scalable and production-ready React.js applications. Proficient in RESTful API integration, and state management. Experienced in delivering impactful projects including task management systems, and queue management. Demonstrated ability to design reusable component-based architectures, optimize performance, and develop responsive, touch-friendly web interfaces for SaaS platforms. Fast learner with proven record of delivering high-quality software solutions in collaborative environments.

## Education

---

- **Khwopa Engineering College** 2078 BS – Present
  - Bachelor of Engineering in Computer Engineering (8th Semester)
  - Liwali, Bhaktapur
- **Khwopa Secondary School** Graduated 2077 BS
  - +2 Science (Higher Secondary Education)
  - Dekocha, Bhaktapur

## Professional Experience

---

- Danfe Solution** Bhaktapur, Nepal
  - **Junior Frontend Developer (React.js)** Oct 29, 2025 – Present
    - Promoted from Intern to Junior Frontend Developer within 3 months.
    - Led frontend development for restaurant management SaaS systems.
    - Built and maintained Admin Panel, POS Ordering System, Public Ordering Platform, and Advertisement Management System.
    - Developed reusable React.js components and optimized UI performance.
    - Designed responsive interfaces for tablets and kiosks.
    - Integrated RESTful APIs and collaborated with backend team.
  - **React Frontend Developer Intern** Jul 28, 2025 – Oct 28, 2025
    - Developed reusable UI components with React.js.
    - Integrated backend APIs for admin panel features.
    - Improved responsive layouts and fixed UI/UX issues.
    - Participated in debugging, feature development, and code reviews.

## Projects

---

- **KamSter – Task Management System** GitHub Repository
  - MERN Stack (MongoDB, Express.js, React.js, TypeScript, Node.js)*
  - Designed and developed a full-stack task management application with CRUD functionality.
  - Implemented reusable React components using TypeScript.
  - Integrated RESTful APIs for task creation, updates, and deletion.

- **Newa:SayQ – NepalBhasa Learning Platform**

GitHub Repository

*MERN Stack with Machine Learning Integration*

- Developed responsive frontend interfaces and integrated backend APIs.
- Delivered dynamic educational content with focus on UI/UX design.
- Optimized performance for smooth learning experience.

- **MediQ – Queue Management System**

*MERN Stack*

- Built a queue management system to reduce physical waiting time in service environments.
- Developed responsive UI components for real-time queue tracking.
- Integrated REST APIs for live status updates and efficient management.

## Technical Skills

---

- **Programming Languages**

- JavaScript (ES6+), TypeScript
- HTML5, CSS3

- **Frontend Frameworks / Libraries**

- React.js, Redux / Context API, React Router

- **State Management & API Handling**

- React Context API, Client-side state handling
- RESTful API integration, JSON, Axios / Fetch API
- Asynchronous data handling, API testing

- **Version Control & Tools**

- Git, GitLab / GitHub
- VS Code / IDEs, NeoVim
- Debugging tools, Chrome DevTools

## Achievements

---

- Promoted from React Frontend Developer Intern to Junior Frontend Developer within 3 months for exceptional performance and project delivery.
- Led frontend development for production-level restaurant management SaaS systems, designing reusable and scalable React.js components.
- Delivered full-stack projects (KamSter, Newa:SayQ, MediQ) with responsive UI, real-time API integration, and performance optimization.
- Applied strong technical skills in React.js, TypeScript, MERN Stack, and RESTful APIs to build impactful, real-world software solutions.

## Languages

---

- English – Fluent
- Nepali – Native
